

SULZER

Investing in tomorrow... today

On November 15, 2021, President Biden signed into law the Infrastructure Investment and Jobs Act also known as the Bipartisan Infrastructure Law (BIL) which includes the Build America Buy America Act (BABA). In response to the BABA funding requirements, Sulzer has made strategic investments in facility expansions and fortified its supply chain for its US assembled products. These initiatives not only ensure compliance but also contribute to significant lead time improvements.

Sulzer's specialized water-related brands provide a full cycle solution to the US water industry supporting the infrastructure improvements coast to coast.

BABA compliant available for order January 2, 2024

- Same reliable and efficient submersible pumps you can always count on:
